

CHANGE NOTICE

Date: AUGUST 2009 (Available in late August or September)

Log Number: EU-08-410

Model Affected: L-1X, L-1X16, 180UC

SWITCH GUARD

As CMA continually strives to enhance our equipment, a new switch guard is being installed on all CMA undercounter models (L-1X, L-1X16, 180-UC).

This switch guard will serve as a bumper-guard, protecting the switches and eliminating occurrences such as

- ¥ Hitting and breaking of switches, while moving heavy dish racks or pushing bus carts
- ¥ Getting clothing caught on the switches
- ¥ Leaning over counter and accidentally turning Power switch ON or OFF

Just another way that CMA can offer the best customer service available!
