

CHANGE NOTICE

Date: June 2009 (Re-distribution February 2010)

Log Number: EU-08-405

Part Description: Stainless Steel 1 HP Wash Pump Motor
Model Affected: CMA-180UC, L-1X, L-1X16, GL-X 110V :P/N 00200.75
180UC 220V : P/N 00200.70

New Stainless Steel High Performance Energy Efficient 1HP Wash Pump Motor
CMA introduces its new SS20 line of "Stainless Steel High Performance Wash Pumps" and "Energy Efficient 1hp Motors". Our SS20 unit fits within the same footprint as our previous model (PN 200.66 and PN 200.10). The new SS20 Stainless Steel pump will prevent corrosion and carbon deposits normally associated with traditional iron pumps. It is also much more durable than many of the plastic pumps being offered today on the open market.

All Stainless Steel Open Impeller Energy Efficient 1HP Motor
All stainless steel high performance impeller.

NOTICE: Recommended basic inventory for future wareable item replacement. The new SS20 pump requires PN 00206.70 pump seal and PN 3226.70 pump o-ring.

CMA continues to seek new and improved ways to enhance its product line, while providing high quality and service to the dishmachines we manufacture. The new stainless steel pump will be installed on CMA Model 180-UC, L-1X, L-1X16 and GL-X. The new CMA SS20 pump motor has undergone over two years of high performance testing for quality assurance, with superior high performance results.
