

CHANGE NOTICE

Effective Date: FEBRUARY 2010
Log Number: CN-1-419
Part Description: TABLE LIMITS SWITCH P/N 13469.20
Models Affected: CONVEYORS

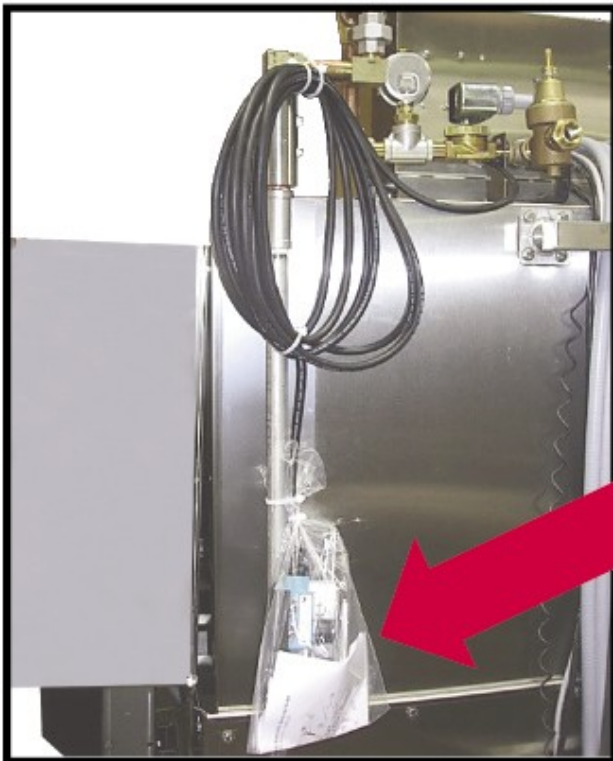

TABLE LIMITS SWITCH

CMA, has added a convenience assistance for its customers. We will begin supplying the "table limit switch pre-wired" on all conveyor dishmachines. This will assure that both machine and dishracks will be protected from damage caused by dishracks jamming at end of the clean table. The "table limit switch" is a vital piece of equipment in keeping your conveyor operating trouble-free. CMA strongly recommends that its **"Genuine CMA Manufactured Table Limit Switch"** is installed on all CMA conveyor dishmachines. Damage may occur if not installed, and our machine is not warranted for repair if not installed.
