

EQUIPMENT UPDATE

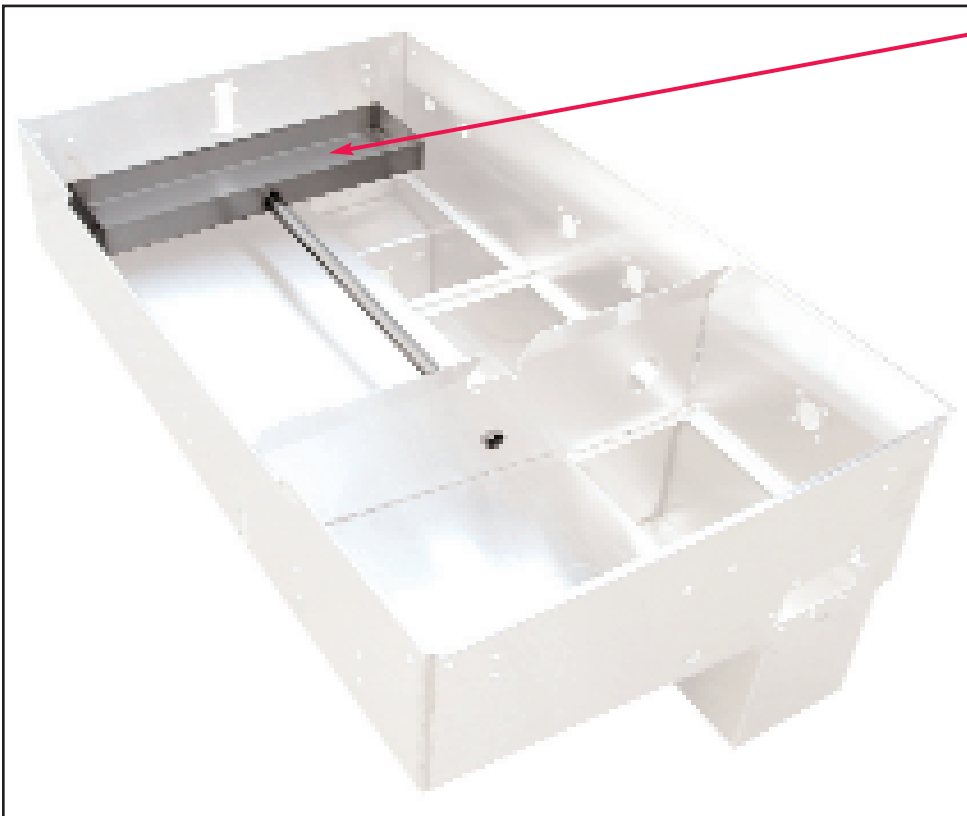

Effective Date: SEPTEMBER 1, 2006

Log Number: EU-9-376

Part: RINSE COLLECTOR PAN

Models Affected: CMA-44 CONVEYORS

New Part Number: 13560.00

A new Rinse Collector Pan has been added to all CMA-44's. This new part will now collect about 50% of the rinse water and transfer it into the pre-wash tank. CMA, through intensive testing, has determined that this new featured item will reduce chemical usage by 30% to 40%. If you choose, the Collector unit can be easily removed. The Collector unit is held in place using (2) bolts that also secure the tray track.
