

# EQUIPMENT UPDATE

**Effective Date:** MARCH 1, 2007

**Log Number:** EU-07-385

**Part Description:** WATERLINE: **WATER LINE LEVEL**

**Models Affected:** L-1X, L-1X16, GL-X (Undercounter washers)

## **WASH TANK: Water Level Line**

CMA's latest improvement recommendation from one of our field service people has been to add a mark to the wash tank indicating the proper water level.

The proper water level indicator is located inside at the back of the wash tank as shown in the photograph above. For best results use the indicator mark as a guide to making initial fill settings.
