

# EQUIPMENT UPDATE

**Effective Date:** FEBRUARY 2008

**Log Number:** EU-08-394

**Models Affected:** AH,C, B, L-1X, L-1X16, E, EVA, GL-X

In February CMA will begin replacing the traditional silicone squeeze tubes and black detergent tubes with New all purpose Orange Santoprene squeeze tubes. The Santoprene tube will be supplied for all three products. CMA has been testing the durability and performance for two years and believe that this new product is far superior to the standard material. When the material is extruded, tolerances can be held much more accurately which prevents over and under size issues.

Available in:

8" standard length pieces, PN# 435.10 and 100 Ft. rolls PN# 435.12
