

New Drain Board For Undercounter Units

Drain Board
P/N: 3706.00
Size: 24"W X 26"D

**Back view of drain board
showing drain hose**

CMA now offers an optional “drain board” that fits all undercounter dishmachines. If a dish rack of wet dishes is placed on top of the machine, the water from the dishes will drain out the back of the drain board. The drain board is supplied with a 6 foot drain hose and with a way to secure the unit to the top of the machine. The unit can be purchased “pre-installed” on undercounter dishmachines or can be ordered separately “pre-boxed” with installation instructions. The “drain board” option offers a more sanitary containment of residue from wet dishes, reduces wet floor conditions and *protects control switches from water run-off.*
