

# SERVICE BULLETIN

**Date:** MARCH 10, 2008

**Log Number:** 113

**Model Affected:** GL-X

**Subject:** TIMER SPLASH SHIELD PN# 00408.71

The GL-X has been retrofitted with a "Timer Splash Shield" to minimize moisture exposure with the mechanical cam timer. The "Timer Splash Shield" gives you assurance that the electronics "will not" be subjected to moisture, and will prevent several issues.

The GL-X "Timer Splash Shield" PN#00000.00 can be ordered for a perfect fit. The shield will be provided with a back tape for easy installation. It is recommended you order this preventive protection. CMA recommends installing this shield on all GL-X Glasswashers in the field. CMA will supply at no charge for the shield with-in the next 60 days.
